

PRODUCT DESCRIPTION

Inspired by the movement of light along a solar eclipse, MYO collection Eclipse brings you the magic light of nature. Eclipse floor is made in one size of 20 to 25cm diameter. Eclipse floor is composed by a central disc emitting the light and two external discs diffusing and reflecting the light. The diffusing disc is made with special MYO mesh material and the reflecting disc is made of steel.

You can place the outer external discs in any place you want of the central disc thanks to a magnetic system. This way, you can create your own ambiance of light by having indirect or diffused light.

MAINTENANCE ZERO: MYO special treated mesh is to be cleaned with a dry cloth or hair dryer only once per year under regular conditions.
