

## PRODUCT DESCRIPTION

Eclipse ceiling is a modular system composed of two different sizes. One module of 20 to 30cm diameter and another module of 25 to 40cm diameter. Each module is composed of a central disc emitting the light and two external discs diffusing and reflecting the light. The diffusing disc is made with special MYO mesh material and the reflecting disc is made of steel.

You can place the external discs in any place you want of the central disc thanks to a magnetic system. This way, you can create your own ambiance of light by having indirect or diffused light. Eclipse comes with a highly powerful LED source being able to be optionally dimmed.

Combine as many Eclipse as you like to create your own ambiance.

**MAINTENANCE ZERO:** MYO special treated mesh is to be cleaned with a dry cloth or hair dryer only once per year under regular conditions.

## SHIPPING INFORMATION

Number of Boxes: **1**

Carton Height: **30cm**

Carton Width: **35cm**

Carton Large: **35cm**

Gross weight: **3kg**

## PRODUCT SPECIFICATIONS

Material: **Steel**

Dimensions: **20cmD (extendable to 30cm)**  
**120cmH Max**  
**20cmH Min**

Colors available: **Ask for available finishes**

Weight: **2kg**

Number of lights: **1 (included)**

LED type: **12W 2700K 750LM CRI>80**

Dimmable: **Yes**
