

## PRODUCT DESCRIPTION

Eclipse wall is made in two different sizes. One size from 20 to 25cm diameter and another size of 25 to 32cm diameter. Eclipse wall is composed by a central disc emitting the light and two external discs diffusing and reflecting the light. The diffusing disc is made with special MYO mesh material and the reflecting disc is made of steel.

You can place the outer external disc in any place you want of the central disc thanks to a magnetic system while the disc closer to the wall is fixed. This way, you can create your own ambiance of light by having indirect or diffused light.

Eclipse comes with a highly powerful LED source being able to be optionally dimmed.

**MAINTENANCE ZERO:** MYO special treated mesh is to be cleaned with a dry cloth or hair dryer only once per year under regular conditions.

## SHIPPING INFORMATION

Number of Boxes: **1**

Carton Height: **30cm**

Carton Width: **35cm**

Carton Large: **35cm**

Gross weight: **3kg**

## PRODUCT SPECIFICATIONS

Material: **Steel**

Dimensions: **20cmD (extendable to 25cm)  
5cmP**

Colors available: **Ask for available finishes**

Weight: **2kg**

Number of lights: **1 (included)**

LED type: **12W 2700K 750LM CRI>80**

Dimmable: **Yes**
